LOST

A small black dog, lame in fore leg, answers to name of "Bobby," who left his home through jealousy. Finder is requested to return animal to Clyde Hall, who wishes to adopt.

NOTICE TO CREDITORS AND CLAIMANTS

In the estate of Bliss Wellington Doncaster, late of Roy, Montana, U.S.A. Farmer deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Bliss Wellington Doncaster, who died on the 19th day of February, 1920, are required to file with L. H. Stack, Barrister, Vulcan, Alberta, Solicitor for Frederick B. Doncaster, by the First day of November 1921, a full statement, duly verified, of their claims and of any securities held by them, and that after that date the said Frederick B. Doncaster will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which Notice has been filed with the said L. H. Stack, Barrister, Vulcan, Alberta, Solicitor for the executor of the will of the said deceased.

DATED at Vulcan, Alberta, this 18th day of July 1921.
L. H. STACK,
Solicitor for the Executor.

TENDERS WANTED

Municipal District of Marquis

Tenders will be received by the undersigned for the construction of road between Sections 8 and 17-19-21-4, covering approximately 14000 yards of embankment, rip rapping of the same and construction of bridge or culvert. For specifications and full particulars. Apply M. D. of Marquis.

R. E. HOUSE, Sec. Treas.

TENDERS FOR PAINTING

Tenders will be received by the undersigned, to August 3rd, 1921, for painting the Mayview School, inside and out, two coats, plastered wall to have one coat size and two coats paint, floor one coat oil. Material will be supplied by the board. The lowest or any tender not necessarily accepted.

LESLIE RICHARDSON,
Secretary-Treasurer,
HEARNLEIGH.

ONLY A YARN

An American tourist in Scotland took a great fancy to a handsome collie he saw, and offered to buy it. The owner asked some questions, and on learning that it was the would-be purchaser's intention to take "Jock" to America, he refused to part with the dog.

Just then an English tourist came along, and he also made a bid for the collie, which, though less than the first offer, was accepted. The American was annoyed, and when the Englishman had departed, he said: "You told me you wouldn't sell your dog."

"Na, na," replied the canny Scot. "I said I couldn't part wi' him. Jock'll be back in a day or two, never fear. But he couldn't swim the Atlantic."

The Farmers Union Picnic Immense Success

About Two Thousand People Assembled at Lake McGregor and Have Great Time.

The U. F. A. picnic at Lake McGregor, on Wednesday last, was indeed a real union picnic. It was directed under the joint auspices of the U. F. A. locals of Kirkdale, Milo, Queenstown and Berrywater, and everybody was there, at least it is estimated that there were fifteen hundred to two thousand people present.

It was the day after the election, and the political success of the U. F. A. was not greater than the success of their picnic enterprise. It was immense, the greatest picnic of the season and the best ever held at this place. Lake McGregor is nature's fine gift to this community, and it afforded the opportunity for ducking and diving, swimming and splashing. There were aquatic sports of every kind, and the boats were busy on that day; there were athletic contests to no end, and baseball games; there were competitions of many kinds, and horse racing, and the horse races were particularly good; there was everything there to make this the record picnic event, and not the least was the Vulcan Citizen's Band, which organization rendered a program that added pleasure to the picnic and made the splendid reputation of the band greater.

BARN DANCE

Something new in the way of dances was held on Friday evening last, in the way of a barn dance, which was held in the big barn on the farm of A. C. Middleton, just south of town.

A large number of people were there from Brant, Carmangay and Vulcan, nearly all arriving by car. Dancing started at 9 o'clock with only a few on the floor, but by 11 o'clock the big building was comfortably filled and everybody having the time of their lives. This was kept up until midnight, when supper was announced by the M. C., after which everyone took their seats while the good eats, of which there was more than enough, was served. At 12 o'clock dancing was again resumed and kept going away past the quitting time, which was to have been 2 o'clock.

The music, which was supplied by Ober's orchestra and comprised violin, piano, drums and cornet, was splendid and enjoyed by all present.

The M. C., Mr. Dewie, announced during the evening that another such dance would be held at the same place on Wednesday, July 27, and for the benefit of those who were not able to be present at this dance and who wish to know if a good time is assured for the next one, we would advise them to ask their friends about it who were present on Friday evening.

THE RED CROSS SOCIETY

As the Red Cross develops its organization throughout Alberta and organizes further units in the local centers, it becomes increasingly evident that the need of such preparations is very real. The headquarters of the Alberta branch in the O'Sullivan block, Calgary, is daily in receipt of inquiries and requests for help. In the districts where rain did not come in time to save the crop these requests are very numerous.

The Red Cross is meeting this demand with their organized efficiency. In most cases, in fact wherever possible they are getting their local units to investigate and report on relief applications. This is working out well and brings a sympathetic feeling between the units and the parent organization.

Next week Dr. James W. Robertson, C. C. M. G., chairman of the National Red Cross in Toronto, will visit Calgary and Edmonton. He is looking over the Red Cross work in western Canada with his mission in connection with the Boy Scouts, and comes to Alberta after spending some time in British Columbia.

Mrs. Waagen, vice-president and honorary secretary of the provincial branch, returned to Calgary recently after attending the conference on unemployment which was called by the government. She comes back with refreshing news of the activities of the units in the north of the province, especially at Fort Saskatchewan, where there are 880 members.

BASEBALL

On Friday evening last Bog Simington's "Bronks" clashed once more with the Nanton boys, and this time took the winning end of the score. The game was exciting from start to finish and kept the fans of both teams on their toes all the time. Owing to the fierce south wind which prevailed nearly all through the game there was not much work for the outfielders, but the infielders had all they could handle. Willard Love pitched a real game, and with the splendid co-operation of the infield players held Nanton down to two runs. Howard Marcellus, the Vulcan shortstop, was at his best and pulled off some good plays, including a double. In one inning Vulcan had the bases full with two men down, and it looked as if they were going to pile up a few more runs, but luck was against Recor and he was fanned. Pauli, the Nanton pitcher, did some excellent work with the ball, but did not get as good support as he might have done. This, no doubt, was owing to our rough diamond.

So far this season the home team has not lost a home game, and it is to be hoped that they will keep this up. Following is the line-up:
Vulcan—Recor, c.; W. Love, p.; Eshom, 1b.; E. Love, 2b.; McKenzie, 3b.; Marcellus, s.a.; Love, r. f.; Vaughan, c. f.; Mensinger, l. f.
Nanton—Lorie, c.; Pauli, p.; Skene, 1b.; Larson, 2b.; McLeod, 3b.; Folkard, s.a.; Shaw, r. f.; Cupp, c. f.; McIntyre, l. f.

Final score: Vulcan, 3; Nanton, 2.

The Cayley vs. Vulcan ball game, played on Friday evening at the local diamond, was a very tame affair. At least it seemed so to the local fans, who have been witnessing some real games lately. The game did not start until after 7 o'clock and had to be called at the end of the seventh on account of darkness. The local boys seemed to be at their best and were absolutely too much for the visitors, who fought hard to catch up. At the end of the second inning, with Vulcan eleven runs ahead, the local fans started to boost for Cayley, but it was all to no avail.

The main features of the game were two home runs in the second by Vaughan and Recor. Cayley also made a home run in the third, and Marcellus, who seemed determined not to let the other home run king's get ahead of him, batted one out in the sixth, which made a record of four home runs in one game, three for Vulcan and one for Cayley.

Final score:
Cayley.....000 100 0—2
Vulcan.....560 334 *—22
Batteries—Duncanson, D. Cameron and Love; Kehr and Recor.

MEETS WITH SEVERE ACCIDENT

On Wednesday, July 20th, while riding in the relay race at the U.F.A. picnic at Lake McGregor, Mr. Ollie Shier had the misfortune to have his back injured to such an extent that he had to be brought into the hospital here.

It seems that after changing horses, instead of his horse starting to run, as was expected, it commenced to buck, and, catching Mr. Shier unawares, threw him heavily to the ground.

Mr. Shier, who is still in hospital, is progressing rapidly and is expected to be around again in a few days.

A government seaplane will be stationed at Kamloops during the present summer to assist the federal and provincial forest services in combating fires in the district.

SAM BROWN

U. F. A. candidate elected in High River Riding.

LOCALS

Born: To Mr. and Mrs. J. D. McIntyre, on July 26, a daughter.

Mrs. Perkins and two little daughters, of Calgary, arrived on Monday and are visiting Mrs. Perkins' mother, Mrs. Bancroft.

Mr. and Mrs. Spooner left on Sunday for their ranch west of Okotoks. The construction of a new walk for a block west from the bank of Hamilton is a civic improvement that will be much appreciated.

The painting of the exterior of the bank of Hamilton building is being completed and will add much to the appearance of this place of business.

Mrs. G. C. Malroy left Monday for Lethbridge, where she will visit for the next two weeks.

Mr. C. A. Johnston left for Calgary on Monday morning on business.

Bob Simington is thinking of challenging the Moose Jaw Millers for a series of games to be played in Vulcan. If he is successful, the admission will be just the same.

Mr. Charles Clark, editor of the High River Times, accompanied by Mr. Harry Nelson, also of the Times staff, were business visitors to Vulcan on Wednesday last.

Can you imagine three home runs in one game? Oh, man! Babe Ruth has nothing on our ball players.

Mr. and Mrs. Hagerman, of Sylvan Lake, were Vulcan visitors on Saturday.

Mr. Fred Hilton, cattle buyer of Calgary, was a business visitor last week.

Mrs. T. A. Irving left on Wednesday last, accompanied by her little son, Tommy, for Rochester, N. Y., where he will undergo an operation.

Mrs. F. G. Stewart's sister, Miss More, of Prince Albert, Sask., is visiting her at present.

Mr. Galliker left on Friday evening last for Humboldt, Sask, where she will visit with her mother for the next two or three weeks.

Mr. Stanley of the government telephone is relieving her at present.

Miss Violet Carruthers of the telephone staff is spending her vacation in the foothills.

Mrs. W. L. Bucher, who has been visiting with friends and relatives in the east, returned to Vulcan on Thursday last.

Mr. and Mrs. Art Neiman, who have been spending their vacation visiting the coast cities, returned home on Tuesday last. They report having spent a most enjoyable holiday.

We notice in the High River Times that their baseball team can "safely" be placed against any of the surrounding towns. We would very much like to see a game played here between High River and Bob Simington's Bronks, and see if they are entitled to the word "safely" or not.

In a recent letter from Mrs. Dyce Allan, who is at present visiting with relatives in Nova Scotia, she reports that the hot weather there is the most severe ever experienced in that province.

Mr. Muts, who is at present residing at Blairmore, was a Vulcan visitor over the week-end.

Mrs. Roy Ferguson left on Monday morning for Calgary, where she will visit with friends for a few days.

NOTICE

It is requested that owing to the continued dry weather householders whose boulevards have trees should make it their duty to see that they are watered. In doing this they are saving the town a lot of unnecessary expense.

LOCALS

Mrs. George Eamor returned on Thursday last.

The Mormons in America observed July 24th as Pioneer Day.

Mr. L. H. Stack was a Calgary visitor last week on business.

Mr. D. Morrison left for the coast on Friday. Mr. Morrison has been ordered to the coast for medical treatment.

Mr. and Mrs. Reeves, who have been visiting with friends and relatives in Nova Scotia for the past few weeks, returned home on Saturday.

The girls who are camping out at High River under the chaperonage of Mrs. Henry and Mrs. Eshom, are having a very enjoyable time. Mr. Way, Mr. Henry and Miss Davis visited them on Thursday.

Miss O'Neill and Miss Sherman, of Calgary, are the guests of Mr. and Mrs. Clyde Hall.

Mr. and Mrs. Laws, Mr. and Mrs. John Douglass and Mary Douglass, motored to Quin Lake last week, where they will reside for a few weeks.

Mrs. Bone and Mrs. Rogers, of Calgary, are visiting with Mrs. Harry Jacques.

We notice in one of the Calgary papers that there are two "big league" scouts looking over the Calgary Bronks for material. It has been suggested that a wire be sent them, inviting those worthy gentlemen to come to Vulcan and look over Bob Simington's "Bronks," as Bob has one or two good utility players that might please them. Who'll pay for the wire?

Mrs. N. Simington, of Armstrong, B. C., is at present visiting with her two sons here, Fred and Bob Simington.

Mrs. J. Levering, who left for Calgary on Friday evening, returned on Saturday evening, accompanied by Mr. Levering, who has been in hospital for the last two weeks.

Everett Depoe, who is well known in this district, having lived here for several years, and who left here some time ago for Coeur d'Alene, Idaho, to get married, returned on Friday evening with his bride. Everett married Miss Etta McCullough, of that city, in the early part of June.

Misses Ruth and Grace Schugel left on Thursday for Estevan, where they will visit for the next month with friends.

It must be tough luck to be a regular baseball player and not get a chance to play a full game.

Mr. O. A. Craig and family, who have been spending their vacation at Sylvan Lake, returned on Tuesday last.

Mrs. (Shorty) Grey, who has been visiting in town for the past several weeks, left on Saturday morning for Drumheller, where she will join her husband.

Mr. and Mrs. Palmer of Revelstoke, who has been visiting here with Mrs. Palmer's sister, Mrs. J. Leverington, returned home on Friday last.

On Friday evening a number of Vulcan's dance enthusiasts motored to Blackie to attend the dance being held there. They report having a splendid evening.

Mr. A. Higgins, commercial manager of the government telephone, was a business visitor to Vulcan on Wednesday.

Mrs. A. E. Hayes and Mrs. W. H. Grant and Vieta left on Thursday for Manitoba. Mrs. Grant is going to her home in Melita and Mrs. Hayes will spend a few weeks in Winnipeg.

Mr. and Mrs. Denoon and family of Nanton spent a few days with Mrs. Denoon's sister, Mrs. C. W. Robson.

Mr. and Mrs. Guy Denbigh and Jack Wolfe returned on Friday evening from Banff, where they have been spending a week's vacation.

Prof. George Smith, of Toronto University, who has been visiting in town with his sister, Mrs. A. G. Spooner, for the last few weeks, left on Thursday for Calgary.

George Hoadley, U. F. A. candidate for Okotoks, was elected by 769 majority.

"Good business is good politics." This is the motto the United Farmers will observe in the new government.

Born: At the Maternity Hospital, Vulcan, on Saturday, July 23rd, to Mr. and Mrs. C. M. Clark, a daughter.

Commander Woodruff, of the United States navy, and family passed through Vulcan on Saturday on their return trip to their home in Philadelphia. The commander left the above named city about six weeks ago on a motor tour to the Pacific coast.

ADVERTISING

The Advocate The Medium

Newspaper advertising in your immediate community is a matter of necessity to every business, to every man who has anything to sell, be it merchandise or service. Advertising has become a definite, indispensable, firmly founded and soundly constituted service to business. This community newspaper is willing that you should realize upon its value.

The Vulcan Advocate

An Independent Weekly Newspaper issued every Wednesday afternoon at the office of publication, Vulcan, Alberta. Subscription price per year, in Canada, \$2.00; United States and other countries, \$2.50. Advertising rates will be furnished on request.

THE VULCAN ADVOCATE

VULCAN, ALBERTA

MEIGHEN MAKING GOOD

Premier Meighen, no matter what his party politics, is making good in Great Britain, and, all Europe, and Canada, will realize the advantages which come through a worthy representative. He has been accorded the freedom of the principal cities, and his reception has been described as positively tumultuous; all the papers carry eulogistic editorials, and now the Washington conference is credited to him. The Daily News, which has the largest circulation of all the London daily newspapers, says: "It is now an open secret that but for the Canadian premier's courageous stand on Canada's behalf, after a heated discussion concerning the renewal of the Japanese treaty, the Washington conference might never have been called under such propitious stars as now."

The temperature of last week, and particularly on Wednesday, furnished the best excuse thus far for the present styles of ladies' wearing apparel.

The attitude of the members of the Pharmaceutical Association of Alberta are in favor of eliminating the sale of liquor by druggists absolutely. That is to say, they prefer to be medicine dispensers rather than booze vendors.

The proposed transfer of Premier Drury, of Ontario, from the field of provincial politics to the wider field of Dominion politics as a leader in the Progressive party is significant of the fact that men come from the ranks of the United Farmers who are competent and efficient in government.

The entire elimination of the Conservative party in the Alberta Legislature is a feature of the recent elections. And few there be that mourn. This party in this legislature has been divided against itself, and its fall is not a surprise.

Mr. McIvor, the Independent-Liberal candidate in Pincher Creek, got only 113 votes in the recent election and lost his deposit. McIvor insisted on running as a candidate and he got what was coming to him.

"Courtesy first" is the slogan that has been proposed in connection with a safety campaign throughout the country. It is calculated to reduce the number of auto accidents and fatalities. Courtesy is always an asset to anybody, and it should go with everybody everywhere.

The press dispatches convey the information that labor and capital are agreed on the great question of disarmament. The mixed commission of the League of Nations will furnish the proof. It is well that these two great factors have at least agreed on one subject, and it is a satisfaction to know, also, that they are in favor of disarming.

It does not lower the temperature any or make us forget the hot spell of last week, to learn authoritatively that there has been intense heat throughout the world, hotter in some places, even, than here. Just now might be an opportune time to give effectiveness to the preaching of a doctrine of which we heard more in the days gone by than we do in the modern sermon.

"The best cattle ever imported into Scotland." Such was the verdict of a number of prominent Scottish cattle men at Glasgow after inspecting the newly arrived consignment of Canadian cattle numbering 224 head. Five Canadian provinces are represented in the aggregation and the enthusiastic reception accorded it is expected to make history for the Canadian cattle industry.

NEWSPAPER COMMENT

Canton Repository: Now that all the girls are dressed like that, the vamp has to do some real acting to put over the idea of wickedness.

Vancouver Sun: Results in Alberta indicate that the farmers of the west are no longer willing to be the innocent bystanders while in the cities capital and labor are at each other's throats. The day is past when the man who produces the bacon is willing to sit back and allow his affairs to be handled entirely by parliamentarians recruited from the larger centers.

Owen Sound Sun-Times: It is easy to write that "the speed craze must be stamped out," but how is it to be done? As long as intoxicants are made men will get drunk. As long as motors that can make fifty or sixty miles an hour are made there will be fools trying if they can't "do a little better than that," so that they can brag about it.

Winnipeg Free Press: The responsibility the U. F. A. invited is theirs. The right man for the premiership is plainly Mr. Wood. He is the president of the U. F. A. He is the man who planned the intervention in provincial politics of farmers as an economic class. The program is his and leadership which gave the movement victory is his. The responsibility of taking hold and putting this program into effect is his; he can hardly escape it.

Calgary Herald: The farmers have given a pledge to abolish patronage. The farmers of Ontario gave the same pledge. They have made straight patronage appointments to lucrative administrative offices. They have bought supplies on a large scale on the patronage basis. But taking the administration as a whole it must in fairness be said that the farmer government of Ontario has avoided the evil better than the old line parties. The Alberta farmers may improve upon the Ontario example. Patronage is costly. It leads to extravagance and inefficiency in the public service and the taxpayer pays the shot. Sincere efforts to eliminate this evil should be encouraged. The new government will be supported by public opinion in all that it does in this direction.

Calgary Albertan: British Columbia seems to have gone from bad to worse in its latest change in the control of the liquor business. A short trial of about one month has shown that under its present system of what is known as "government control," which a few people endeavored to establish in Alberta, has increased all the objectionable features in the liquor traffic and has removed none of them. The bootlegger is still in evidence. The government is not preventing the private individual from engaging in the business. As a matter of fact, under the system of government control the government controls nothing. Dives continue dealing in liquor of all kinds. The government does not even control the price of liquor. Nothing that we have seen so far will induce the most reckless people in this province—unless they are financially interested in the liquor business—to substitute what we have here for what they seem to have in British Columbia.

The Guardian: We are told that there are 20,000,000 acres of good farm land in the prairie provinces within fifteen miles of the railways which is very desirable for new settlers, and which could quickly be settled if they were available at moderate prices; but most of it is held by private individuals and corporations and is held at high prices. An idle land tax of 1 per cent. has been levied upon this land but it has not had much effect. Now it is proposed by those desirous of getting settlers on these lands that the provincial legislature should require the giving of options on these lands, these options to hold good for a year or more. And it is also proposed that the price which the owner sets upon his land shall be the price at which the land shall be assessed for taxes. New Zealand adopted a similar scheme which seemed to work fairly well, but so far the Provincial Legislatures have not cared to follow New Zealand's lead. And yet something like this plan seems necessary if we would settle our idle sections with responsible settlers. There is no question that the holding of large areas of land for speculative purposes is a sore grievance to settlers and always has been, and even most radical measures are justifiable if they can be made effective.

The U. F. A. "sweeps" the Province of Alberta, is the large display heading in a provincial daily announcing the result of the election. "Sweeps" is a curling term. Would not "mows," "cleans" or "bags" be more appropriate words? It might be added that there was also some considerable "threshing" in connection with this event.

W. F. Greene, a native of Bristol, England, is dead, and by his death comes to many the first information as to who was the inventor of moving pictures. There is perhaps not any one thing better known throughout the world at this time than moving pictures, and yet how few of them are who know anything of their origin, and less than that. Greene died a poor man, the common lot of inventors, while many are making millions out of his product. And it is a fact that most of the many who are making money out of pictures know very little about pictures. Like the telephone, which everybody uses, but few there are who really know anything about telephones.

Twenty-five tons of oil machinery were shipped last week from Peace River for Fort Norman.

HOTTEST ON RECORD

We have never experienced the hot blasts from the Sahara, but we doubt if the Sahara had anything on the brand of weather that existed here on Wednesday. It was without question the hottest in the history of the weather bureau, the thermometer standing at 96 and 98 in the shade in the afternoon, and the dust accompanied by intense heat made conditions fairly intolerable. About ten o'clock at night the wind ceased and the thermometer lowered, thus assuring cooler weather conditions for the next twenty-four hours. That the hot, blasting winds proved damage to what remained of the grain crop, goes without saying and it removed all hopes for fair crop yields on summer-fallow land. It was the hope of the farmers that a soaking rain would follow which would at least provide a crop of green feed but as yet no rain has fallen. Prospects in High River are indeed very bad. This condition seems to be general all over the southern part of the province.

LOOKS LIKE BRISK TRADE

Considerable interest is being shown in the hay situation, with the certainty of a short supply over a very considerable proportion of southern and central Alberta, and not a great deal to spare in some other districts.

The wild hay situation in the province, will be fairly high, from present indications. Already there are some stockmen and farmers who are arranging for a supply, and dealers are reporting more inquiries and more actual business than might reasonably be anticipated at this time of the year. Wild hay is quoted at country points worth \$12@15. There is not a great deal offered yet.

Timothy is not yet being offered in any volume, and indications are that it will open up fairly steady, as reports from most fields tell of a comparatively high cut.

At the Calgary market the movement is light, with wild hay \$15@16 and no timothy offered. Feed oats are quoted at 35c@40c.

FIGHTING FOREST FIRES

That there have been no forest fires in this province this year is something to be thankful for. In this connection we believe the careful and painstaking manner in which the air patrol force at High River carry out their work each day is largely responsible for this condition. Each day two aeroplanes with pilots and observers traverse the country between High River and Waterton Lakes south and from here to Clearwater in the north, carefully on the lookout for the appearance of prairie or forest fires. Two or three fires have been nipped in the bud this year owing to the careful work of our forest patrol force, who notified forest rangers of the outbreak of fires at certain localities and thus before the flames spread, the fire fighters were enabled to confine the flames to a small area.

This week while the Lethbridge fair is in progress, cards will be dropped by one of the Forestry Branch officials on the grounds so that the people may be warned to carefully observe every precaution with regards to matches and lighted cigarettes during the present very dry spell, so that our resources may be conserved.

One of the cards contain the following: "Don't start a Forest Fire! You can't pay back the cost in lives and timber. Place your camp fire on sand or near water—and put it out when you leave. Government aeroplanes make daily fire patrol flights from High River. Your share is to be careful in the woods. Imagine your favorite camp site a blackened barren—and then take the trouble to put your fire out."

Almost 18,000 votes were cast in Calgary in the recent election. A vote will be taken on the proposed Red Deer Municipal hospital on August 12, when it is expected the scheme will carry by a good majority.

STRONG—MCDONALD

A very quiet wedding took place at the Presbyterian Manse on Monday, July 18th, 1921, when Adeline Ellen McDonald, only daughter of Mr. and Mrs. McDonald of High River, were united in marriage to Mr. Hubert Page Strong, of Camrose, Alberta, eldest son of Mr. and Mrs. Strong of Raymond, Alberta. Rev. W. M. McNicol officiating. Only the parents of the bride were present. The bride was gown in a suit of blue tulle and wearing a picture hat to match and carrying a bridal bouquet of orchids. Mr. and Mrs. Strong left on the morning train for Banff and Lake Louise, where they will spend their honeymoon. They will reside for the present in Camrose, where Mr. Strong is employed in the C. P. R. as operator at that point.

Crank-Case Service

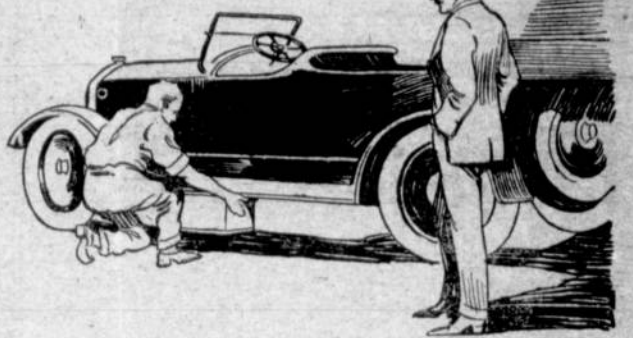

Drain and thoroughly clean the crank-case of your motor car every 500 miles, then refill with fresh Imperial Polarine.

Do this and you will reduce your operating expenses almost a half and will easily double the life of your motor.

Bring your car to us for Crank-Case Cleaning Service. We guarantee promptness and our work will show itself immediately in better engine performance and lessened operating expense.

VULCAN

ALBERTA

A novel reunion for wives of Canadian soldiers who have settled on the land, married in the Old Country and new to Western Canadian conditions, has been staged in Calgary and will likely become an annual event. Calgary women conceived the idea of bringing them to the city at fair time to impart a short course in household and farm economics and enjoy a good time socially. The course was an entire success.

According to a cablegram from Bristol, England, the Prince of Wales was a notable winner with his exhibits of Shorthorn cattle and Shropshire sheep at Bath and West and Southern Counties Agricultural Show, being the winner of most of the prizes. He declared his intention of shipping some of these farm aristocrats to his ranch in Alberta where there is already a fine blooded aggregation.

FROM KINCARDINE REVIEW

Only some one who is agin the government can settle the Irish question, but the trouble is he cannot settle it unless he is in the government. Then he is no longer agin the government and consequently he is not in a position to settle the question. And there you are!

"Every married woman," says the Kingston Whig, will agree that the husband is the bonehead of the family."

And when she wants a few bones it is the head of the family she goes to.

KEEPING YOUTHFUL

A well-known biographer, in sketching the life of a famous statesman and diplomat, makes the emphatic statement that the characteristic in his subject that made him beloved of his friends and that gave to his career a large amount of its strength and power was "the eternal boy in him." Even down to grey hairs he absolutely refused to grow old, but persisted in maintaining toward all of life the fresh and untouched attitude and outlook of a youngster. There may be some folk ready to question the philosophy lying back of such a statement, but there have been more than this one illustration to attest its soundness. The youthful mind is the mind to which everything is new and unspoiled. The boy's world is a world in which anything may happen, a world of infinite possibilities, a world where the best is always ahead, and in which anything great and glorious may come to pass just around the corner. The man of the youthful heart puts the boy's zest and enthusiasm into living and is never guilty of that crowning sin of growing years, living too much in the past. Surely he must keep alive in his life the power that makes great and beautiful things possible.

SCRUB HORSES MAY BE USED

There is quite a possibility that scrub horses of Alberta will after all be turned to good account, according to S. G. Carlyle, provincial live stock commissioner, who was in Calgary Friday morning.

At the commencement of the month a shipment of these were sent to a De Silva, at Port of Spain, Trinidad. In this matter the Hon. Duncan Marshall took the keenest interest and it was chiefly owing to his efforts that Mr. De Silva was induced to make a trial.

While it is not yet known definitely to what extent the trade will develop, it is eminently satisfactory to state that a further order has been received from Trinidad and that another carload of these horses is being sent forward Friday night. They are from 4 to 8 years old and weigh from 800 to 1,000 pounds.

The arrangements in connection with the latter shipment were much facilitated by the Royal Bank of Canada, who have a branch office at Port of Spain, Trinidad.

The animals will be in charge of J. C. Waugh, of the E. P. ranch, who brought out stock for the Prince of Wales and who is returning to Britain for a further shipment.

The scrub horses referred to—and it is stated there are about 100,000 of them in the province—net the owners \$38 each.

Smoking rooms for women on trains are a travesty on womanhood, is the opinion of the average woman, when they read that the C.P.R. intended making the innovation. What women desire more than smoking rooms is a more commodious wash room in the average pullman.

HISTORY OF LINEHAM OIL WELL RECALLED

The following article appeared in a recent issue of the Lethbridge Herald, being sent from Havre, U. S.A., by a special correspondent. As regards the accuracy of the statement we have our doubts, the writer dwelling somewhat on his imagination:

John Lineham, long gathered unto his fathers, was the first man to bring in a producing oil well in the system of anticlines which traverses to the boundary between Montana and the bordering Canadian province.

About twenty-five years ago Lineham drilled a well six miles north of the International Line in the southwestern corner of Alberta. On the map of this section of the country is a spot which bears the name "Oil City." This was Lineham's headquarters. He financed his company in Calgary and brought in a well at a depth of less than 1,200 feet, which is said to have produced at the rate of 300 barrels per day.

Great excitement followed this strike, and while it was at its height, suddenly the well ceased to flow. Litigation brought about a cessation of operations. There was no market for Staveland fair will be held on August 5. The dry weather will not prevent people from having some recreation, and it is wise to hold such events so that we may forget for a time the fact that conditions are bad.

We are informed that Hon. Arthur Balfour when golfing does not use an expression stronger than "Botheration. On this course one hears expressions, not so old maidish as the above, and much more to the point.

James Shields, of Okotoks, while at Calgary recently seeing the sights, is reported by the Herald as having lost \$140 cash while in company with a couple of Calgary women. Charges will be laid when the women are identified.

A nine million dollar increase in dairy products for 1920 over the previous year is reported by the Dominion Bureau of Statistics. Creamery butter in 1920 with an output of 110,030,399 pounds showed an increase of 6,139,692 pounds over 1919 and cheese made in factories aggregated 140,621,008 pounds, a decrease of 16,000,000 from the previous year. There were in operation throughout the Dominion 3,165 dairy factories with a capitalization of \$32,767,317.

The average cost in Canada of imprisoning a prisoner in the penitentiary is \$2,800. To this must be added the loss or damage resulting from the commission of the crime, together with the value of the support given to dependents of a man imprisoned, as well as the economic loss to the state of the man himself. Through a revision of the statistics during the last year a penitentiary during the last year a revenue of \$143,334 was returned to the government.

A new Alberta rye, Rosen, originating from seed imported from Michigan, and introduced by the Noble Foundation, has shown peculiar aptitude to climatic conditions here and will become a standard crop. It grows well in dry soil, outyields the ordinary varieties, and stands up well against frost.

A bumper apple crop is expected in the Annapolis Valley this year and it is estimated that over a million barrels will be available for export, all of which will pass through the Halifax port.

the oil, the nearest refinery being thousands of miles away, and what had been a nine days' wonder was forgotten in the wild real estate boom that swept over western Canada in the years that followed.

Lineham lost interest in oil development. He discouraged any who talked to him about developing oil in Alberta and loafed for a couple of years. Then, although he had always been a poor man, he made a trip to Europe. When he came back, two fine business blocks, which had been built in his absence, became his property. He owned them outright and thereafter he lived a life of luxury. No one could account for his sudden acquisition of riches, but as many fortunes were made overnight in western Canada during the real estate boom, his prosperity attracted but little attention.

When Lineham was about to die and knew it he sent for his old friend, William Livingston, the Canadian oil refiner. He told him that if he would drill somewhere within 100 feet of the old Lineham well he should get a commercial well. Livingston, knowing Lineham's peculiar history, and believing him, had a string of tools moved over to Oil City a few weeks ago, and is drilling a well.

Before Livingston spudded in an effort was made to clean out the old well. This was found to be an impossibility on account of a cement plug which was affixed to the bottom of the casing, and which was thought to be 25 feet in thickness. John Lineham died all these years could have explained, but he carried his secret to the grave with him.

Right across the international line on the Blackfoot reservation, the Standard Oil, through the Frantz corporation, its subsidiary, is drilling, and near the Frantz, Louis Hill, the Great Northern magnate, is under contract to drill. Further west and near Harve, the Standard, through the Elk Basin, another subsidiary, is drilling, while right across the boundary

in Alberta, the Standard Oil, through its Canadian subsidiary, the Imperial Oil company, has a hole down well towards the sands. The Standard Oil is wild-cating on a princely scale along this borderland, and with what work it is already committed to, will expend upwards of half a million dollars there during the coming season. There are a number of strong independents who have followed the Standard into this promising field, with their dollars and their drills, including the Boves Structure Oil company, composed largely of Texas and Louisiana oil men, and headed by George M. Day, as president, who is a former Standard Oil man. It is going to be a busy season in the northern oil fields this summer.

The U. F. A. will not take over the reins of the Alberta government until August 15.

ROSEN FALL RYE
We are hearing a good lead about Rosen Fall Rye which is being grown in different parts of Alberta and Western Canada.
This Fall Rye is grown extensively in Southern Russia and Poland and has a strikingly large transparent green berry. We find that all the awards at the largest grain and hay shows held on the continent of recent years have been awarded to Rosen Fall Rye.
Rosen Fall Rye has been grown in our district for a number of years. John Lucas of this district has been successful in being awarded many prizes, diplomas, etc., for this variety.
At the International Soil Products Exposition held at Peoria, Illinois, 1917, he was awarded 1st and a diploma for Rosen Fall Rye. At Kansas City, 1919, he got first at the International Live Stock Exposition grain and hay show held at Chicago, 1919. The award was given to Rosen Fall Rye and Mr. Lucas was the only Canadian getting a prize in the Rye class at this show.
Rosen Fall Rye also got first place at this show in 1920.
Mr. Lucas has a fine field of this Fall Rye, some of which is 5 to 6 feet high and with exceptionally large heads.
Those who have examined the field are surprised to see such a splendid crop under such dry conditions.
Mr. Lucas' rye is eligible for registration under the Canadian Seed Growers' Association, as well as the International Crop Improvement Association, which gave the registration of this seed international recognition.
This fall rye yields from 25 to 100 per cent. heavier than common fall rye and we notice it is being grown extensively by the Noble Foundation Co. Ltd., of Nobleford, Alberta.
A sample of this fall rye can be seen in the Bank of Montreal and is labelled "White-Russian".
A terrific storm swept over the Lac La Biche district last Wednesday.

LOCALS

Mr. E. J. Charters spent the week end in Calgary.

This is "Apricot Week". See Dyce Allan for your wants in this line.

Mrs. A. J. Flood is at present visiting with her sister at Oakesdale, Washington.

Mr. and Mrs. Ferngren and family returned on Sunday from the Big Bow where they have been.

Dr. and Mrs. C. H. Nelson, Miss O'Neil and Miss Sherman, of Calgary, are the guests of Mr. and Mrs. Clyde Hall.

Mrs. Bone and Mrs. Rodgers of Calgary, Mrs. Harry Jacques' mother and sister who have been visiting here for the past week, returned home on Tuesday.

Mrs. McKee of Richmond, Que. and Mrs. Noble and Mrs. Baulton of Nobleford were Vulcan visitors on Saturday the guests of Mrs. E. J. Charters.

Mr. W. J. Wellington left on Friday for Fallis, where he will spend his vacation with his wife and parents. Mrs. Wellington left for that point some time ago.

Mr. William Fields who is leaving this country, is holding an Unreserved Auction Sale on his farm, 7 miles North of Champion 3 1/2 miles East of Kirkcaldy and 8 miles South-East of Vulcan, on Friday, July 29th.

An aeroplane passed back and forth over Vulcan last week on a flight from Lethbridge to Calgary and return. This plane is the first to make a stop at the air station at High River since the establishment of the station at that point.

A party consisting of Mr. and Mrs. Geddes, Mr. and Mrs. Art. Neiman, Harry Wenger, Mr. Colwell, Mrs. Bone, Mrs. Rodgers and Mr. and Mrs. Harry Jacques, motored to the Foot-hills on Sunday with Mr. and Mrs. Malloy of Nanton.

The Advocate is desirous of securing reports weekly of the events at Ensign, Alston, Brant, and all the other local points where this paper circulates. This would give publicity to the communities and make interesting reading for our subscribers. Who will help us?

"Everywoman" was the attraction at the Opera House on the last two days of last week, and the two shows on Saturday drew fine business. It was a wonderful picture and a great subject, and the many who were present at the showing were delighted and are praising the management for the superior excellence of his offerings.

NEWS OF GENERAL INTEREST

Almost 18,000 votes were cast in Calgary in the recent election.

The new government will take office about the middle of August. Arrangements can scarcely be completed before that time.

Taxpayers in Britain must pay this year to the exchequer the sum of \$900,000,000. Before the war the amount was only \$207,000,000.

In a card of thanks published in the Okotoks Review, E. A. Daggett, the defeated candidate signs his resignation.

A portion of the Bar U ranch, west of High River, is under irrigation and the crops so affected are in splendid shape. The water is taken from the Middle Fork of Highwood River.

In the first six months of the year 72,000,000 feet of lumber were shipped from Vancouver to all points. The total export of lumber in 1920 amounted to only 89,792,000 feet.

Alex. Ross is, of course, almost certain to be selected as Alberta's first labor minister. It is pointed out that the farmers cannot ignore this group, since it co-operated so closely in the elections. Ross' appointment is practically certain.

This is the first change of government, as far as party is concerned, that Alberta has had in its history as a province, and it has caused some disturbance, but for the most part there is indifference, and certainly The Albertan could find very few who were really alarmed over the prospect.

The arrivals of farmers, farm laborers and domestics for the spring months make a healthy aggregate. In March, April and May there were 10,405 arrivals of these classes at ocean ports, of whom 6,671 were males. For the same period from the United States there were 6,458 arrivals, 4,000 being of the male sex.

Already speculation is rife as to what will happen when the U.F.A. cabinet takes office. Will there be a general sweeping out of office of those office-holders appointed under the old political system, or will the farmers leave the organization of the government pretty much as it is?

The Canadian Pacific liner Empress of Britain made a record trip on her last voyage to Quebec, the crossing from Liverpool to Rimouski via Cape Race, being made in six days and one hour, a gain on the previous record of three hours. The vessel was recently converted into an oil burner.

Drilling on the two wells west of Nanton is suspended at present, says the Nanton News. Work at the Willow Creek well will be resumed in a few days, as the trouble there is not serious. No drilling has been done at the Christie for some months, owing to a smash-up of the piping, which they have not yet been able to get out of the well.

Canada's trade with Belgium is exhibiting a gratifying increase and the figures of the past twelve months ending March 31st, showing an increase in exports to that country of eight million dollars over the previous twelve months. Total exports for the period to Belgium were \$38,909,939 as compared with \$30,930,311 for the previous period.

PURE AND WHOLESOME FOOD

A very apparent effect of the work of the Department of Agriculture at Ottawa is the improvement that has taken place in the cleanliness and purity of the people's food. Especially is this true of the work performed by the livestock and health of animals branches. Better equipment at the stock yards has been brought about as well as improved facilities for transportation on the one hand, and, on the other, rigid inspection at the abattoirs and slaughter houses insures healthy and wholesome meats for consumption. It is impossible to over-estimate the value of the work that is thus being accomplished. At the canneries also cleanliness and wholesomeness are assured by the regulations that are enforced by inspectors and supervisors under the immediate control of the health of animals branch. Eggs and poultry, under the poultry division of the live stock branch, have been advanced in public estimation. In bygone times householders always had certain suspicions of the eggs supplied at the breakfast table and used in cooking. They usually expected one, two or three and sometimes more in a dozen to prove unpalatable, and were rarely disappointed. Today they buy and cook with confidence. The same is true of all other articles of food vatched over by this and other departments. By legislation, adulteration has been checked and as nearly as possible suppressed. The capable work not only continues but is constantly being expanded and enlarged in scope.

PRINCE WILL VISIT INDIA

Arrangements are being made for the Prince of Wales' visit to India this fall, and it is anticipated that he will visit his ranch of High River while journeying to and fro. He is expected to leave England about the middle of October and will be absent about six months. Gibraltar, Malta, and Aden are alike anxious to receive a call from the Prince, and it is anticipated that twenty-four hours will be allotted to each of these parts of the empire, while a call at one of the Egyptian ports may likewise be arranged. Bombay will have the privilege of honoring the Prince on Indian soil, and after that he will be received in state at Delhi, Calcutta, Simla, and Agra respectively. The Prince will be royally entertained by Indian princes during his visit.

BIG LOSS IN QUEBEC

Crop and live stock losses in Quebec as a result of the drought and other contributing causes will aggregate \$200,000,000, according to official figures. Of this amount \$150,000,000 represents the loss resulting from the hay and crop failures, and the other \$50,000,000 the loss which farmers will sustain through the necessity of sacrificing their cattle for any price.

Hon. J. E. Caron, minister of agriculture, today admitted that the situation was grave. He said appeals have been made to Ottawa urging the immediate reduction of freight rates on fodder, but is yet no reply has been received. Unless fodder can be obtained from the west, there will be a big slaughter of cattle this fall.

CANADA'S POPULATION

The Winnipeg Tribune carried the following from its Ottawa correspondent:

"A preliminary estimate of the census department, released Saturday, places the 1921 population of Canada at 9,235,000, with all provinces except Nova Scotia showing substantial gains, the grand total for the decade since 1911 being augmented by 2,029,000.

"According to the same figures, western Canada's population this year is 2,893,192 persons, as against the 1911 figures of 1,633,542. This includes Manitoba, Saskatchewan, Alberta and British Columbia.

Percival Baker, who was elected to the Alberta legislature for the riding of Ponoka on Monday, died in the Edmonton hospital on Tuesday night. He was one of the most prominent members of the United Farmers of Alberta, vice-president of the association for three years, and was mentioned as a probable minister in the new farmer government.

Two weeks ago, while cutting down some trees with his two sons, he was severely injured by a tree falling on him and hitting him on the back of the neck. He was unconscious for some time and was partially paralyzed. He recovered somewhat and was able to confer with Mr. Wood in his home. He wrote his election address to the electors of Ponoka while in bed.

On Thursday complications of an unexpected nature set in and the injury interfered with the nerves which controlled his breathing. He was taken to an Edmonton hospital, which an examination showed he had a broken vertebrae in his neck. An operation was performed on Tuesday afternoon, but he died at 9 o'clock.

A. G. Creelman and company, of Calgary were successful tenderers for the contract for the concrete work on the main canal of the Lethbridge northern irrigation system.

BRANT NEWS

Here is a record: W. B. Parker, one of our most esteemed farmers, states that eleven of the Parker family voted at Brant on Monday. Two other members of the family who are voters were away out of the district, otherwise it would have been the lucky number of thirteen that would be recorded.

Some one started a guessing contest here when the question was asked as to who was to be the next premier.

On election day much interest was evinced by farmers in this community and a very large vote was polled. One hundred ballots were sent out originally by the returning officer, and a messenger had to be sent to High River for 25 more. The total number of ballots used here was 103, and in this connection there were 9 contested ballots tied up. There were in Drumheller's favor.

Messrs. Johns and McKay Co. Ltd., announce that on the first day of August they will place their business on a purely cash basis. They are obliged to do so owing to crop and financial conditions in the district. Meanwhile they are marking their stock down to a low rate so that customers will reap a decided benefit by the change. Read their advertisement elsewhere.

The continued dry weather spells disaster to our crops and unless rain comes soon pasturage and green feed will even not be available for stock. The situation confronting us all is serious, but there is nothing gained by being pessimistic and wearing a glum face. By facing the situation with a smile and practicing thrift we will be better able to cope with conditions.

RED CROSS ITEMS

July 25. Hurrah for Tony McPherson, M. L. A. Just watch his smoke. He warned us not to expect any radical changes. He even confessed his inability to supply the much needed moisture, for, as he truly said, "All we need is rain." We believe Mr. McPherson is sincere and will do all in his power to secure good government and justice for everybody.

The Women's Institute met at Mrs. Stagers' on the 22nd. Songs, readings and household hints were given at the roll call. Mrs. Murdoch read some reports and an inspiring address given at the convention. The resignation of Mrs. Doane as secretary-treasurer was accepted with regret, and Mrs. Will Dexter was appointed to take her place. Mrs. P. S. Anderson served delicious ice cream.

Miss Ella Dunham is visiting her sister at Hanna.

Congratulations are due this week to Mr. and Mrs. E. Kehr on the arrival of a small suffragette on election day.

KIRKCALDY NEWS

Mr. C. A. Johnston, who has been visiting with friends in different cities of the United States, returned home on Friday evening.

Mrs. Frank Auslie, Mrs. E. B. Wicks and Mrs. E. B. Reich returned from a camping trip west of Nanton. They picked forty-five gallons of Saskatoons.

There was a good shower at Kirkcaldy on Monday evening and for twenty minutes it rained hard.

SCHMIDT-HALEY

Wednesday evening, July 20, at the home of Mr. and Mrs. W. T. Haley, 1223 Thirteenth avenue west, a very pretty wedding was solemnized by Rev. J. F. Knight, M.A., when their only daughter, Mary Irene, was united in marriage to Mr. Harry Leonard Schmidt, of Blackie, Alberta. The bride who was unattended, wore a gown of ivory satin and carried a sheaf of roses. Mr. and Mrs. Schmidt will visit the coast cities and be at home to friends at their home in Blackie after August 5.

SAFETY IN COURTESY

"Many accidents happen because people have not the point of view of other users of the roadway," said Mr. G. A. Hodgson, 1920 president of the Ontario Motor League, and a member of the executive committee of the Ontario Safety League, speaking here recently. "If the motorist could get the pedestrian's point of view, and the pedestrian the motorist's point of view, I am satisfied there would be fewer accidents and fatalities. Each should know the other has rights on the street, and each should respect those rights. We need throughout the whole country campaign of safety with a new slogan, 'Courtesy First'."

Smoking rooms for women on trains are a travesty on womanhood, is the opinion of the average woman, when they read that the C.P.R. intended making the innovation. What women desire more than smoking rooms is a more commodious wash room, a better average pullman.
